

I am a resident of Eagle Point Bay, Goreville Township, Johnson County, Illinois. I am very concerned about the condition of the roads in our subdivision. Due to budget restraints and conflicting commitments, Johnson County is financially unable to keep our roads from deteriorating. Currently, the shoulders of county-adopted roads are crumbling, and road surfaces are uneven and potholed. A number of regular roads are impassable, even for emergency and postal vehicles.

My neighbors and I depend on these roads for access for emergency vehicles, for school bus pick-ups, service deliveries and for every-day trips to and from town. Because of the limits of our regular county budget, I am asking for your help and support in finding more funds to bring our roads up to standards.

Please help my community, and Johnson County, obtain more money for road building and maintenance. If there is some way I can take action on this matter or support you in any initiative to improve our roads, please let me know.

Yours sincerely,
